

Approved Social and Emotional Screening and Assessment Tools

The Idaho Infant Toddler Program approved a variety of social-emotional screening and assessment tools for staff and contractors to identify children who may have potential delays or disabilities in social-emotional development. These approved tools ensure that all evaluations and assessments adequately address social-emotional development for all children in ITP and are to be used by staff and contractors.

Screening Tools

- Ages and Stages Questionnaire and ASQ-SE
- Brief Infant and Toddler Social and Emotional Assessment (BITSEA)
- Eyeberg Child Behavior Inventory
